

Central Canada Db2 Users Group & IDUG Data Tech Summit

Monday May 13, 2024

8:00 - 9:00

Registration / Badge Pick-up & Breakfast

DB2 for z/OS (The Forum)	DB2 LUW (Room 101)	IBM IMS (Room 103)
--------------------------	--------------------	--------------------

9:00 - 9:20

Welcome & Introduction - Andy Sykes, CCDUG President (The Forum)

9:20 - 10:00
Keynote

Mainframe Strong: Dancing into the Future Kevin McGuinn VP Intelligent Z Optimization and Transformation Solution Engineering BMC Software, Inc		
-----------------------------------------------------------------------------------------------------------------------------------------------------------------	--	--

15min

coffee break sponsored by SEGUS

ZOS-01 Key features of Db2 13 for z/OS delivered since general availability Robert Catterall, IBM	LUW-01 Db2 Latest from the Lab Mike Springgay, IBM	IMS-01 IMS Update Deepak Kohli, IBM
---------------------------------------------------------------------------------------------------------	----------------------------------------------------------	-------------------------------------------

15min

coffee break sponsored by SEGUS

ZOS-02 BufferPool Tuning – The Next Generation Roy Boxwell, SEGUS	LUW-02 Db2 in the world of AI Les King, IBM	IMS-02 IMS analytics and data streaming, oh my! Tracy Dean, IBM
-------------------------------------------------------------------------	---------------------------------------------------	-----------------------------------------------------------------------

60min

lunch sponsored by Broadcom

ZOS-03 Making use of the (REST) API's around me Toine Michielse, Broadcom	LUW-03 Db2 HADR Tuning - how to make it scream Dale McInnis	IMS-03 Understanding IMS Managed ACBs Deepak Kohli, IBM
---------------------------------------------------------------------------------	-------------------------------------------------------------------	---------------------------------------------------------------

15min

coffee break sponsored by IBM Canada

ZOS-04 "Show Me What You Got, Db2!" (my favorite Db2 for z/OS -DISPLAY commands) Robert Catterall, IBM	LUW-04 Troubleshooting Db2 slowdown Bharat Goyal	IMS-04 TD Bank's Managed ACB journey Luxmi Gnanamuttu, TD Bank Group
--------------------------------------------------------------------------------------------------------------	--------------------------------------------------------	----------------------------------------------------------------------------

15min

coffee break sponsored by IBM Canada

ZOS-05 Db2-Party Tori Felt, IBM Keziah Knopp, IBM Mark Rader, IBM	LUW-05 Unleashing the potential of Native Cloud Object Storage in Db2 Warehouse Rob Hooper	IMS-05 A Basic Roadmap to IMS High Availability and Resiliency Suzie Wendler, IBM
-------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------

17:00 - 18:00

Vendor Expo sponsored by

Central Canada Db2 Users Group & IDUG Data Tech Summit

Tuesday May 14, 2024

8:00 - 9:00

breakfast sponsored by

	DB2 for z/OS (The Forum)	DB2 LUW (Room 101)	IBM IMS (Room 103)	Db2 AppDev (Room 103)
9:00 - 10:00 Session 6	ZOS-06 Db2 for z/OS Data Sharing: Performance Considerations Tori Felt, IBM Keziah Knopp, IBM Mark Rader, IBM	LUW-06 Intro to Pacemaker, the cluster manager of the future! Tharmiga Loganathan, IBM	IMS-06 Understanding the IMS TM scheduler Deepak Kohli, IBM	APP-06 Modernizing Applications with Db2 for z/OS Sowmya Kameswaran, IBM

15min

coffee break sponsored by IDUG

10:15 - 11:15 Session 7	ZOS-07 Understand, manage and love certificates in z/OS and USS Ulf Heinrich, SEGUS	LUW-07 Python Tools of IBM Db2 for Implementing AI Systems Shaikh Quader, IBM	IMS-07 Fortifying IMS Against Cyber Threats: A Cloud-Era Resilience Blueprint Gary Turner, BMC	APP-07 Playing (with) FETCH Chris Crone, Broadcom
----------------------------	-------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------	---------------------------------------------------------

15min

coffee break sponsored by IDUG

11:30 - 12:30 Session 8	ZOS-08 Implicitly or Explicitly Defined Db2 Objects – the Good, the Bad and the Ugly Steen Rasmussen, Broadcom	LUW-08 Bridging to the Lakehouse - Connecting Db2 to watsonx.data Francis Wong, IBM	IMS-08 IMS DB Recovery Basics Dennis Eichelberger, IBM	APP-08 A day in the life of a Db2 for z/OS schema Toine Michiels, Broadcom
----------------------------	----------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------	--------------------------------------------------------------	----------------------------------------------------------------------------------

60min

lunch

13:30 - 14:30 Session 9	ZOS-09 Db2 AI for z/OS SQL Optimization Deep Dive Tom Beavin, IBM	LUW-09 Everything You Ever Wanted to Know About Db2 Indexes Zoltan Toth, IBM	IMS-09 So you've implemented the IMS Catalog, what's next? Deepak Kohli, IBM	APP-09 FUNCTIONING in Db2 Chris Crone, Broadcom
----------------------------	-------------------------------------------------------------------------	------------------------------------------------------------------------------------	------------------------------------------------------------------------------------	-------------------------------------------------------

15min

coffee break

14:45 - 15:45 Session 10	ZOS-10 Let Me Make This Clear (Vol. 4): Explaining Often-Misunderstood Db2 for z/OS Concepts and Facilities Robert Catterall, IBM	LUW-10 Light at the end of the Encrypted Tunnel Yalei Zhang, IBM	IMS-10 Hands-on labs - IMS Buffet of labs Suzie Wendler, Tracy Dean, Dennis Eichelberger	APP-10 Back to Basics – Triggers and Advanced Triggers Frank Rhodes, BMC Software
-----------------------------	-----------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------	------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------

Thank You!
See you in 2025
